Practice Power Check Overview

$200 (Plus GST)

Overview

Do you know the strengths and weaknesses of your Allied Health practice? Completing this review will provide you with greater understanding of the areas to focus your efforts. This allows for a planned approach which filters down to all levels of the practice. By focussing on your strengths you can produce greater achievement in you service delivery by harnessing the expertise you already have. Likewise, identifying areas which need some attention will lift the overall strength of your practice and ultimately productivity and service delivery. Similar to a battery, if your practice is 'fully charged' it runs efficiently and at its ultimate potential. The less charge your practice has, the weaker and less efficient it is. Once you know what areas are draining power, you can work towards charging these areas to increase the overall power of your practice.

Focus Areas

There are nine focus areas which look at the key aspects to running an Allied Health practice.

- Marketing Your Practice
- Information Technology
- Practice Planning
- Team Culture
- Staff Development
- Personal Well Being
- Practice Management
- Health and Safety

Package Inclusions

- Practice Review Tool
- Practice Review Report
- 45min meeting to review the findings of the report and set goals

Once completed you will receive a report for each of the nine areas as well as your overall practice 'charge'. A consultant will meet with you to discuss your practice results and work with you to set goals to address the identified focus areas. The assessment will take about 15 minutes to complete and the review meeting is held for 45 minutes at a time that suits you (after hours appointments available).
